

Tender to redesign and implement the download and donate pages on the LibreOffice website

The Document Foundation (TDF), the charitable entity behind the world's leading free office suite LibreOffice, seeks for companies or individuals to

redesign and implement the download and donate pages on the LibreOffice website

to start work as soon as possible. The combination of the download and the donation pages is the largest source of income for The Document Foundation. It is implemented into the SilverStripe CMS with donation mechanism integration to PayPal, ConCardis, BitPay and Flattr. We seek to optimize user experience by a redesign and update of both pages including technical implementation.

TDF is looking for an individual or company to, as a turnkey project, redesign and optimize both the download and the donate page. This involves designing new graphics and icons to improve visual appearance, integration of TDF-provided images and texts, and A/B testing for the donate page with frameworks such as Sixpack.

Skills we seek include:

- » knowledge of the SilverStripe CMS
- » experience with integration of PayPal, ConCardis, BitPay and Flattr
- » expertise with development of PHP and CSS

Other skills: English (conversationally fluent in order to coordinate and plan with members of TDF).

TDF welcomes applications from all suitably qualified persons regardless of their race, sex, disability, religion/belief, sexual orientation or age.

Want to apply?

See <http://tdf.io/dltender> for the full tender.

Deadline for applications is: September 1 2016
